## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 - 16, drawn to video segment editing or sequencing, classified in class 715, subclass 723.
- II. Claims 17 - 22, drawn to layout presentation, classified in class 715, subclass 517.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as video segment editing and sequencing of an output video stream by inserting triggers using a plurality of graphic sources, a video switch, inserter and a gateway circuit. See MPEP § 806.05(d).
